

CERTIFICATE OF COMPLETION

CENTER FOR CYBER SECURITY STUDIES AND RESEARCH

(Education & Training Unit of Secure Sphere Foundation)

An accredited Personnel Certification Body by the United Kingdom Accreditation Service (UKAS) under ISO/IEC 17024 - Requirements for bodies operating certification of persons

This is to certify that

Aryan Parashar

has successfully completed the

Certified Windows Forensic Expert (CWFE)

examination held on 1 September 2024

Key Learnings:

- **Forensic Analysis Techniques:** Mastered the methodologies and tools required for conducting comprehensive forensic examinations on Windows systems.
- **Evidence Collection and Preservation:** Learned best practices for collecting and preserving digital evidence to maintain its integrity and admissibility in legal contexts.
- **Registry and File System Forensics:** Gained expertise in analyzing Windows Registry and file systems to uncover crucial forensic artifacts.
- **Incident Response:** Developed skills to effectively respond to and investigate security incidents involving Windows environments.
- **Report Writing:** Acquired the ability to document findings in clear, concise, and professional forensic reports.

The intensive training program provided hands-on experience with real-world scenarios and advanced forensic tools.

Awarded this on 9th of September, 2024.
